ImmunoHUB Deliverable D6.3

Project Documentation Sheet	
Project	An Immunological Hub of Excellence in Porto tailored to fulfil the ERA Priorities
Acronym	ImmunoHUB
Grant Agreement n°	951921
Call identifier	H2020-EU.4. C. - ESTABLISHING 'ERA CHAIRS' WIDESPREAD-06-2020 - ERA CHAIRS
Start date of the project	1.1.2021
Duration	72 month
Project Officer	Costanza Conte
Coordinator	Nuno Alves (IBMC)
Partners	Instituto de Biologia Molecular e Celular- IBMC

Deliverable Documentation Sheet	
Number of deliverable	D6.3
Title	Public Website
Related WP	WP6. Dissemination, Exploitation and Communication activities.
Lead Beneficiary	IBMC
Author(s)	Júlio Borlido Santos, Paulo Gomes
Contact email	borlido.santos@i3s.up.pt
Nature of the deliverable	Report
Dissemination level	PU - Public
Due Date	31 December 2021 (M12)
Date of submission	17 May 2022 (M17)
Status of the document	1 st draft by Paulo Gomes on 3 May 2022 2 nd draft by Júlio Borlido Santos on 17 May 2022 Validated by coordination team
Version	Version 1.0

1. Website

1.1. ImmunoHUB page (version 1.0)

ImmunoHUB website **version 1.0** was launched in December 2020 for the preannouncement of the job/position opportunity. It was later updated (January 2021, **version 1.1**) with more details of the application procedures and other details. This version's aim was only to expedite the recruitment process, gathering all the information relevant for applicants and sharing it in a clear and appealing form. The preliminary version will later on give rise to a more complex website, once the Era Chair team start to work inhouse, to incorporate the Era Chair holder's vision of the project. The Project will have a specific area within the **i3S website** and will also have an external dedicated online page (**version 2.0**) to promote research, achievements and activities of this ERA Chair. The dedicated page will also serve as a platform to gather and promote the materials and messages directed to different stakeholders.

1.2. ImmunoHUB page address

The first address of ImmunoHUB (version 1.0) is <https://erachairs.i3s.up.pt/immunohub-2/>
ImmunoHUB dedicated website (version 2.0) is <https://immunohub.i3s.up.pt/>

1.3. ImmunoHUB page within the IBMC/i3S website

The ImmunoHUB research group at i3S will be included in the IBMC/i3S website (<https://www.i3s.up.pt/research-group.php?groupid=202>), according to the institutional website rules. This page will include general information about the group, its objectives, the team assembled, publications and general achievements, and will be connected to the internal database and Backoffice.

1.4. ImmunoHUB dedicated website (version 2.0)

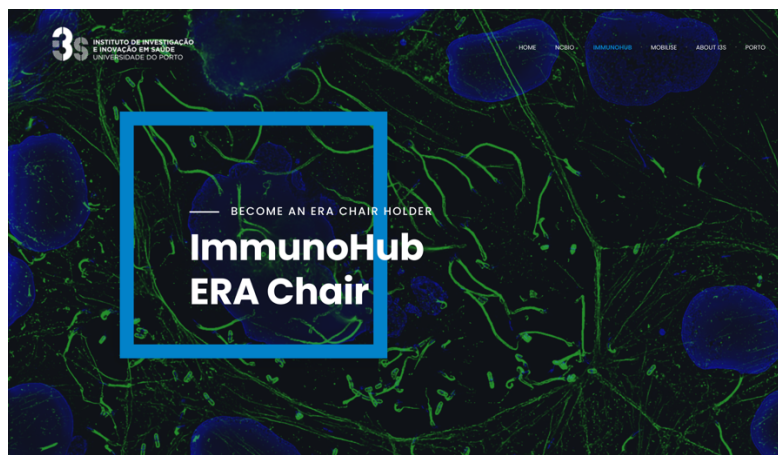

ImmunoHUB will have a website to publicly share information about the project (objectives and outputs), and will include a wider range of information about project activities. It will also include dissemination materials produced by the team and the other members of the ImmunoHUB project, reinforcing its internal and external promotion / dissemination. As the project progresses, the website will also include information on project outcomes, research developments, publications, and achievements.

The ImmunoHUB page will promote scientific and technical data, important activities, patient-oriented information, as well as feed relevant news including, but not limited to, funding opportunities, entrepreneurial opportunities, regulatory news, and successful collaboration cases. The updates will take place throughout the project's duration in close collaboration with the full project team.

The website will remain online for at least 5 years after the end of the project in a steady state. The ImmunoHUB page will continue to exist beyond the H2020 project within the IBMC/i3S website with updated information, as a sustainability measure for dissemination and communication.

2.1. Version 1.0

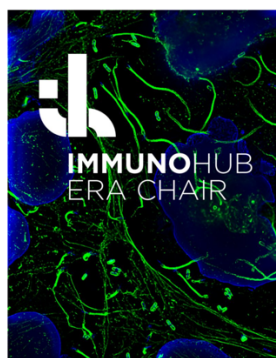

IMMUNOHUB ERA CHAIR

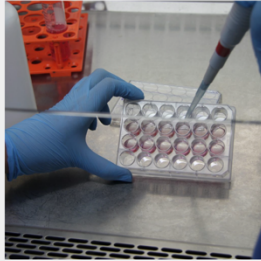

ImmunoHub ERA Chair Infection and Immunity

The second stage of the selection process for the ERA Chair holder is now beginning. Six months after the announcement of the position and application analysis, it was a demanding and rigorous process that resulted in the selection of four candidates who demonstrated to be competent, motivated and ambitious enough to carry the ImmunoHub ERA Chair through and, in its course, develop research in key areas of importance to the Institute, such as Immune Development, Inflammation, Immunological Memory, Tumor Immunology, Immune Pathogenesis. During the month of July, seminars and interviews of shortlisted candidates will be held, which will result in one successful candidate. The recruited scientist will then form a team to work on these topics, thus closing existing research gaps. By assembling an exceptional core team, ImmunoHub aspires to develop an international platform of excellence and innovation in the field of immunology in Porto.

ImmunoHub aims at fostering our international competitiveness and attractiveness in terms of research, quality of publications, innovation, successful fundraising and advanced training.

The ERA Chair Holder and team will benefit from the existing critical mass and from our scientific, managerial and administrative structures.

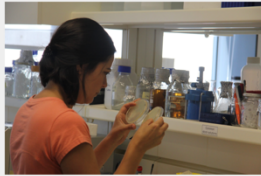

offered conditions

As a highly relevant contributor to the advancement of the IS3 strategy on Infection and Immunity, Immunohub is prepared to offer the conditions for the ERA Chair Holder and team to thrive:

- 5-year contract as Research Coordinator, research equivalent to Full Professor
- Group leader position at I3S
- Human resources: salaries for 3 researchers, 2 technicians and 1 project manager
- Laboratory space for up to 10 team members
- €200.000 for small equipment
- €200.000 start-up package
- Temporary free access to I3S platforms
- Allocated funds for meeting attendance and travelling
- Allocated funds for relocation and support concerning housing, legal/immigration issues, spouse's employment, kindergarten/schooling, etc.

IMMUNOHUB ERA CHAIR

ERA Chair holder conditions to apply

The selection committee welcomes applications from candidates fitting the following requirements:

- Consolidated experience as Independent Researcher in Immunology
- Competitive CV and proven record of effective leadership
- Renowned international reputation in the area of Immune Development, Inflammation, Immunological Memory, Tumor Immunology, Immune Pathogenesis
- Experience in securing, managing and coordinating international projects
- Excellent science communicator and experience in Mentoring Young Scientists
- Experience in post-graduate teaching at the MSc and PhD levels

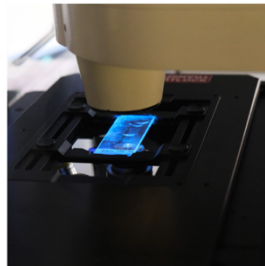

The successful applicant will be expected to commit to the position for the grant's full duration.

The recruiting process will be conducted following the Portuguese labor code, and selection criteria that prioritise merit and transparency, as well as a non-discrimination and equal access policy.

KEY DATES

Application opening/announcement: 1st February
Application deadline (preliminary): 31st May 2021
Results: no later than 31st July 2021
Estimated start date: September 2021

Address: Rua Alfredo Allen, 208
4200-135 Porto, Portugal

The projects NCBI3c, Immunohub and MOBILISE received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement no. 951923, 951921 and 951723.

2.2. Version 2.0

a) Homepage

The screenshot shows the homepage of the Immunohub ERA Chair website. The layout includes a top navigation bar with 'HOME', 'ABOUT', and 'CONTACT' links. The main header features the Immunohub logo and the tagline 'ERA CHAIR IMMUNOHUB IMMUNOLOGY MADE EXCELLENCE' over a background image of cells. Below this is a section titled 'An Immunological Hub of Excellence in Porto tailored to fulfil the ERA Priorities.' with a brief description of the project's goals and a 'ABOUT THE PROJECT' button. The 'ImmunoHUB's Impact' section is divided into four columns: Research, Innovation, Academia, and Society, each with an icon and a short description of its contribution. At the bottom, there is a section for 'Fostering excellence and research in the Academia and Society.' and a footer containing logos for the European Union, the Portuguese Government (3S), and the Immunohub ERA Chair, along with contact information and legal links like 'PRIVACY POLICY' and 'COOKIES POLICY'.

b) About the Project page

The screenshot shows the 'About The Project' page of the Immunohub ERA Chair website. The page has a blue header with the logo and navigation links (HOME, ABOUT, CONTACT). The main content area is white with blue accents. It features a central image of a cell culture, a 'Platform of excellence and innovation in the field of Immunology' section, 'Our Mission' and 'Objectives' sections, and an 'ImmunoHUB's Impact' section with four quadrants: RESEARCH, INNOVATION & DEVELOPMENT, SOCIETY, and ACADEMIA.

About The Project

Platform of excellence and innovation in the field of Immunology.

The central goal of the Immunohub is to develop an international platform of excellence and innovation in the field of Immunology in Porto, Portugal. The project is designed to have an impact on 4 hierarchically structured domains: firstly and foremost, excel Research, and Innovation and Development in the area of Immunology. Secondly, affect local, national and international Academia and Society.

Our Mission

Our overarching goal is that the scientific, technological and educational impact of the Immunohub action will not only be reflected during the duration of the project, but will enhance the international competitiveness of the institute beyond the end of the project. Furthermore, Immunohub will enhance the attractiveness of Immunology research in the wider region of Porto, Portugal and Europe, contributing to the development of the next generation of Immunologists. This will be achieved by multiple capacity building activities, including improvement of critical mass, available technology and management and administrative skills of IBMC-ICS.

Objectives

- Boost the quality of established groups at IBMC-ICS
- Increase the success rate of IBMC-ICS
- Consolidate the European Charter for Researchers and Code of Conduct
- Increase the translational potential of basic research
- Integration of research in Immunology into the Biotechnology Industry
- Disseminate the project within the Academia ecosystem
- Make the research output of the project readily available (OPEN ACCESS)

ImmunoHUB's Impact

RESEARCH

- 2-fold increase the number of high impact factor publications
- 1.5-fold increase in average IF
- Improve critical mass and international research networks.
- 10-20% increase in the success rate in competitive funding
- 2 new Immunology teams

INNOVATION & DEVELOPMENT

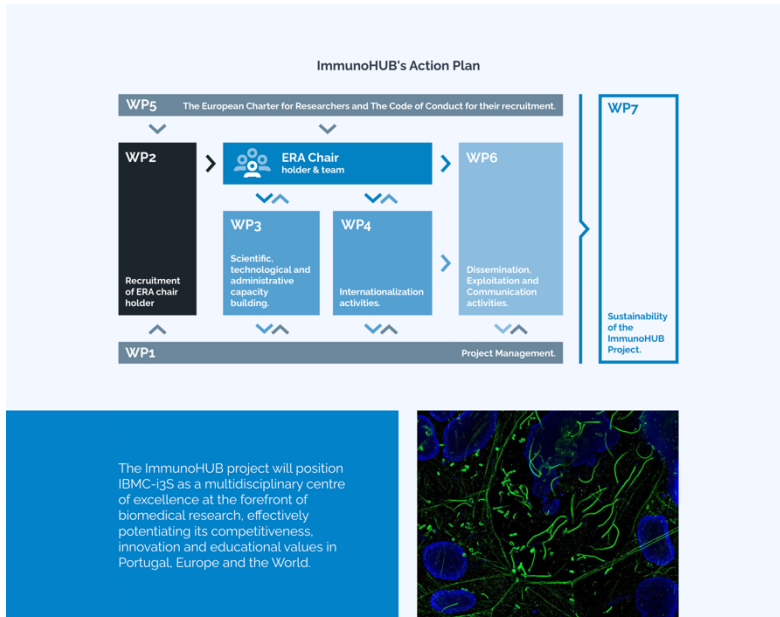

- 1.2-fold increase the participation of IBMC-ICS in health technology-based programs
- Increase by 10% the number of new collaborations and contracts between IBMC-ICS and Biotechnology and Pharmaceutical companies
- Fill a minimum of one patent

SOCIETY

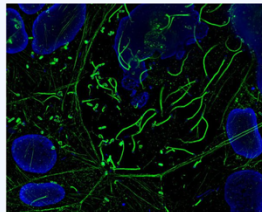

- Publish Results using an OPEN ACCESS policy
- Organization of dedicated thematic seminar series in Immunology
- Participating in Public Outreach Events

ACADEMIA

- Engagement with post-graduation programs and advanced training
- Establishment of at least one new Widening Initiatives with training programs (e.g. MSCA ETN/ITN, Erasmus+, Twinning)
- Mentoring of Post-Doctoral researchers, Master and PhD students

The ImmunoHUB project will position IBMC-135 as a multidisciplinary centre of excellence at the forefront of biomedical research, effectively potentiating its competitiveness, innovation and educational values in Portugal, Europe and the World.

c) Contact page

The screenshot shows the contact page of the IMMUNOHUB ERA CHAIR website. The page has a blue header with the logo and navigation links (HOME, ABOUT, CONTACT). The main content area is white with a blue sidebar on the left containing contact information. The right side features a contact form with fields for Name (First Name, Last Name), Email Address, Subject, and a text area for the message, followed by a 'Send Message' button. Below the form is a blue banner with a microscopic image of cells and text describing the ERA CHAIR IMMUNOHUB as a cornerstone infrastructure for scientific excellence in Biomedical Research across Europe. The footer includes logos for the European Union, the Portuguese Government, and the IMMUNOHUB ERA CHAIR, along with contact details and legal links (PRIVACY POLICY, COOKIES POLICY).
